

Product Parameters

Hydraulic Screw Cutter

JK-30

When the nuts rusted this nut nutting machine is most time-Saving tool,no need power.

Item No.	JK-30	Inside dia of nut	M8-M30
Output	20T	Outside dia of nut	18-46mm
Stroke	26mm	Weight	7.0Kg

Product Detail

WARM PROMPT

Overseas imported goods have been changed in packaging and accessories, if the update is not timely, please forgive us! Please prevail in kind. Guaranteed products are original authentic overseas.

01 The head is made of 40CR chrome steel

Not easy to deform, the semi-hexagonal shape is more in line with the position of the nut.

Easy and Quick Pressure Relief

02

When pressing, tighten clockwise, release counterclockwise after pressing and return automatically.

03 Oil pump core

Modified version plunger, three-layer sealing ring isolation without oil leakage.

Thickened insulated handle

04

Humanized handle design, more labor-saving and safer.
