

PRODUCT PARAMETERS

Hydraulic electric pump MER-218EB

Model	MER-218EB	Power	750W
Voltage	220V	Maximum pressure	70MPA
High pressure	≥2.5-70MPA	Low pressure	≤2.5MPA
High pressure flow	0.6L/min	Low pressure flow	3.5L/min
Motor speed	2800r/min	Oil temperature	-5-80°C
Volume	8L	Net weight/ gross weight	25KG/30KG
Oil requirements	ISO VG 15#-32# Anti wear Hydraulic Oil		

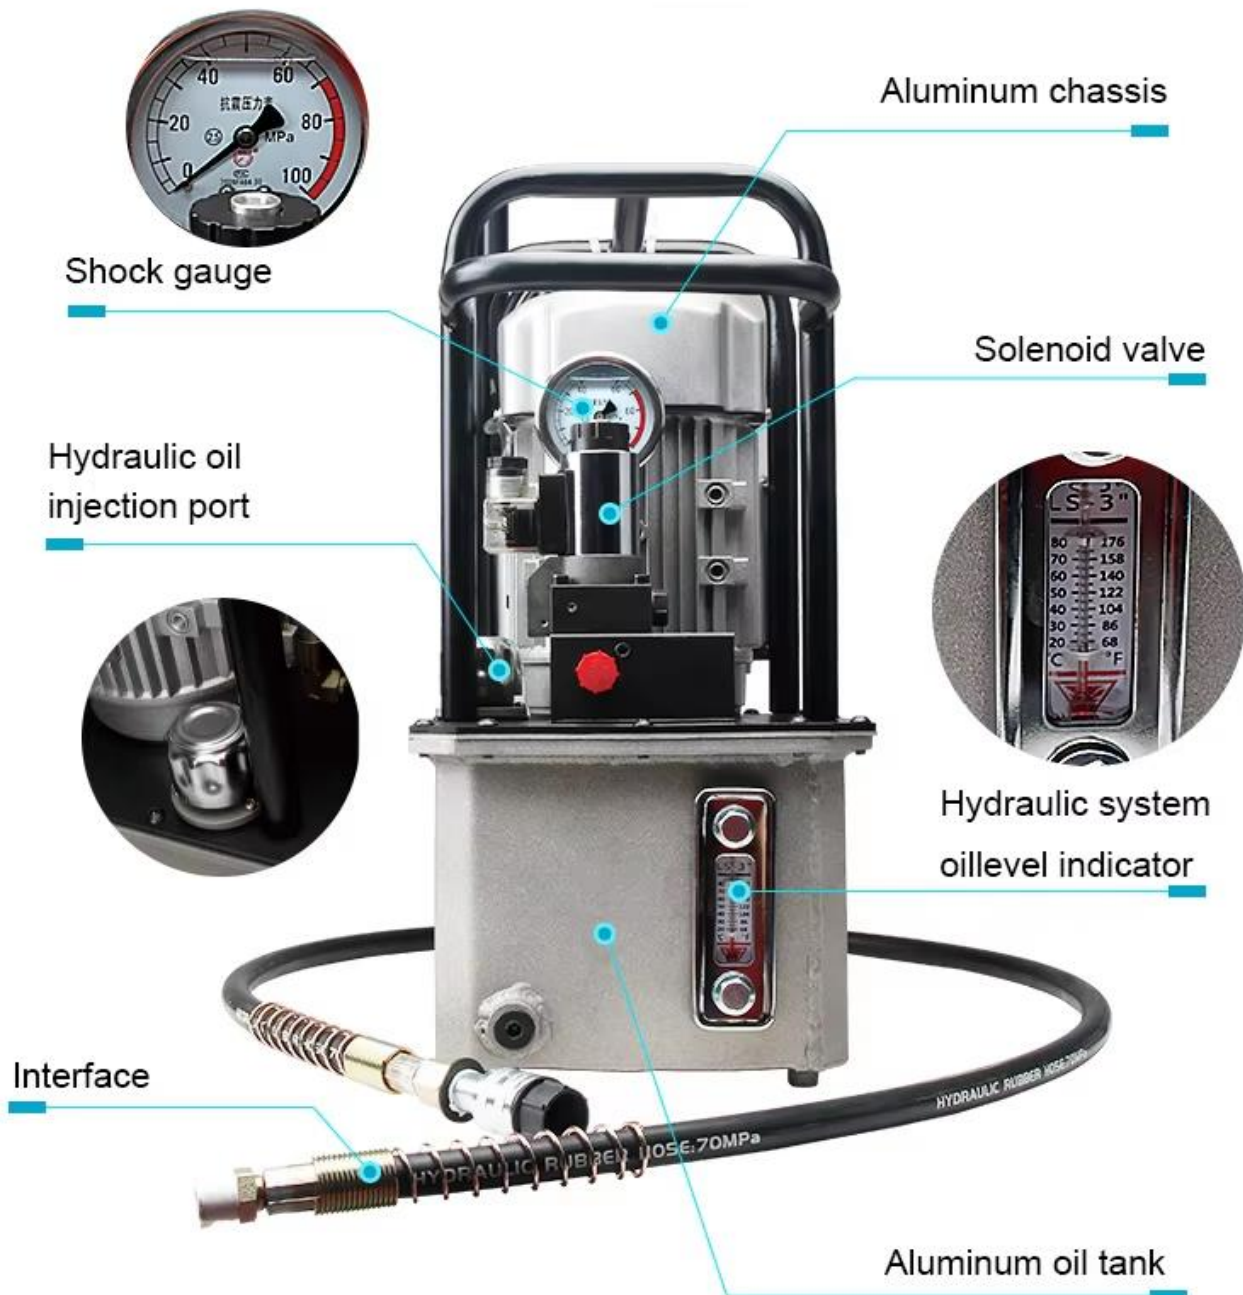

Application

Hydraulic pump can be equipped with the following split type hydraulic tools

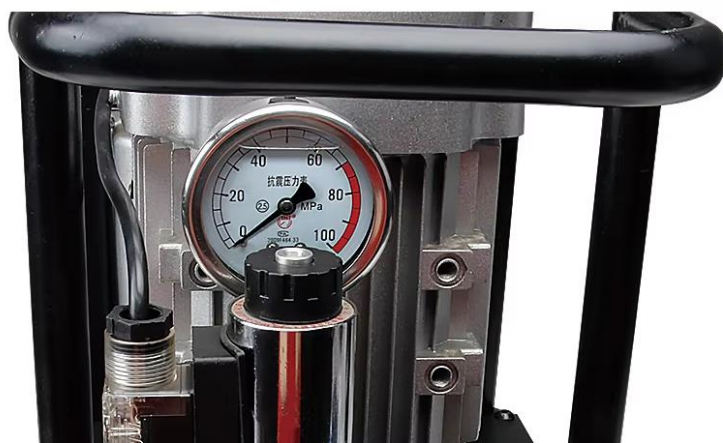

PRODUCT ANALYSIS

**01****Shockproof pressure gauge**

Effectively avoid the impact of vibration, the instrument indication is stable and clear

**02****Reinforced handle design all around**

Protect against bumps and falls, cover and support, easy to carry

**03****Oil temperature and oil window dual display**

You can visually see the oil volume position and oil temperature position. There are two ways to read oil temperature: °F and °C.

**04****Aluminum fuel tank**

You can visually see the oil volume position and oil temperature position. There are two ways to read oil temperature: °F and °C.
