

Product Parameters

Portable ultra-small electric pump
Easy to carry High pressure, Light weight

High Pressure	70Mpa	High Pressure Flow	0.7L/min
Low Pressure	7Mpa	Low Pressure Flow	5L/min
Motor Power	620w	Voltage	220v
Frequency	50Hz-60Hz	Speed	3700r/min
Weight	11kg (Unit Only)	Oil Storage	2.5L (Usable 2L)
Oil Type	15#-32# Anti-wear hydraulic oil		

Application

Hydraulic pump can be equipped with the following split type hydraulic tools

Product Detail

**01 Shockproof pressure gauge**

Effectively avoid the effects after vibration, Instrument indication is stable and clear.

**3/8 Fast interface****02**

Use more convenient, save your valuable time

**03 Visual Oil Window**

Observe whether the hydraulic oil is in the normal range in real time, so as to timely oil injection

**Oil injection hole****04**

The oil pump USES No.15 hydraulic oil, and it is ok to use No.15 or below (The thinner the oil, the better)

**05 Dedicated switch**

"Up" means on, "Down" means off
